HOME
OF
ILLINI
AND
FRANKLIN

When a man with the intelligence, the personality, and the kind heartedness of Professor Carl Wischmeyer, devotes forty-seven years of teaching to a school such as Rose, the man and the school become synonymous. As long as Rose exists Professor Wischmeyer will be a part of it, and every engineer who graduates will be a better man because of his tireless work. To Professor Carl Wischmeyer on his retirement this 1955 Modulus is dedicated.

Dedication

to
PROFESSOR CARL WISCHMEYER

. . hallowed halls

. . . .our president,

Dr. Ford L. Wilkinson

The President's Message

To the Class of 1955:

For the past two decades the world we live in has been faced with crisis after crisis. During this period of time half the peoples of the globe have lost their freedom and that of the other half has been continuously under threat of loss. For the greater part of the life of each of you in this year's graduating class your country has either been at war or threatened by war. During your college years you have faced the possibility of being called upon for service in some branch of the Armed Forces, and this faces most of you after graduation.

It has been gratifying to those under whom you have studied that, in spite of all this, you have been earnest in preparing yourselves for a career in a profession that permits no demagoguery and which directs its efforts toward increasing the standards of living of your fellow men. You have shown that you have the ability to live for the day in a period when the future offers the prospect of great unrest.

The bright side of it all is, however, that never before in the history of the world have the free peoples been so determined to remain free. In spite of the threats of war and the tremendous uncertainty of the years ahead our country is at the peak of prosperity with the standard of living at its highest level. Maintenance of that prosperity and a continuance of a high standard of living are our greatest assurance of successful resistance to the forces of evil.

Each of you has been educated for the purpose of assuming a definite place in the vanguard of those resisting the ever-present threat to the personal liberties of us all. We in the faculty, after four years of intimate association with you, are sure of your abilities and purpose. We have no hesitancy in presenting you to the engineering profession firm in our conviction that you will take your places in the ranks of Rose men who for over seventy years have been the leaders in the nation's progress.

The faculty join me in wishing you God Speed in the fruitful but uncertain years ahead.

Sincerely yours,

Ford L. Wilkinson, Jr.
President

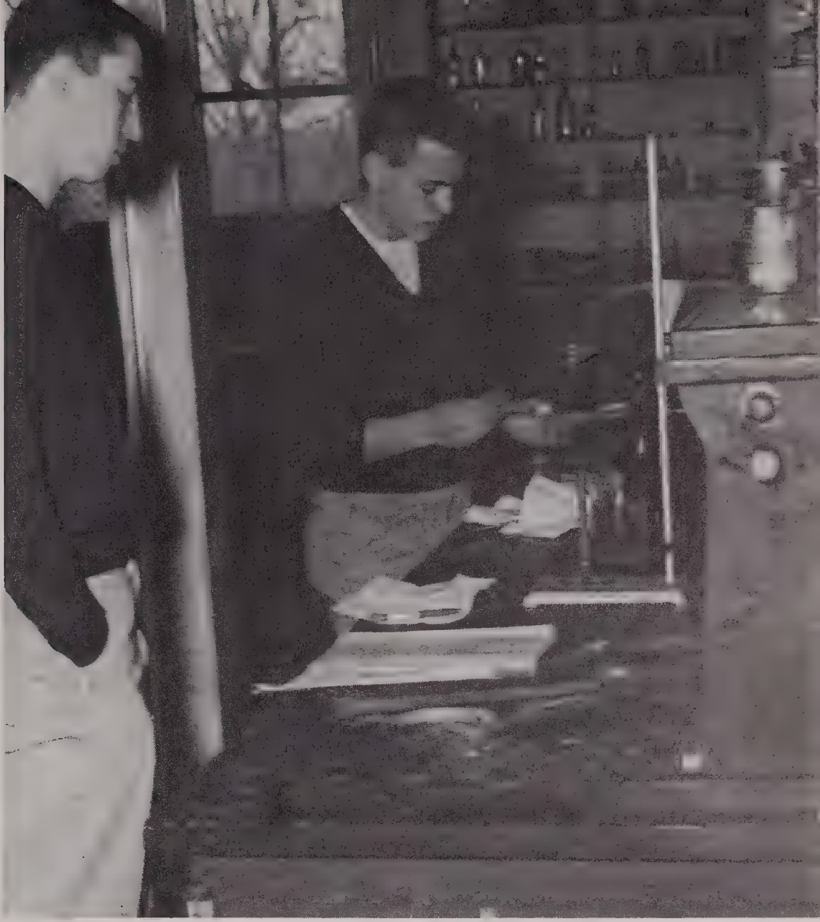
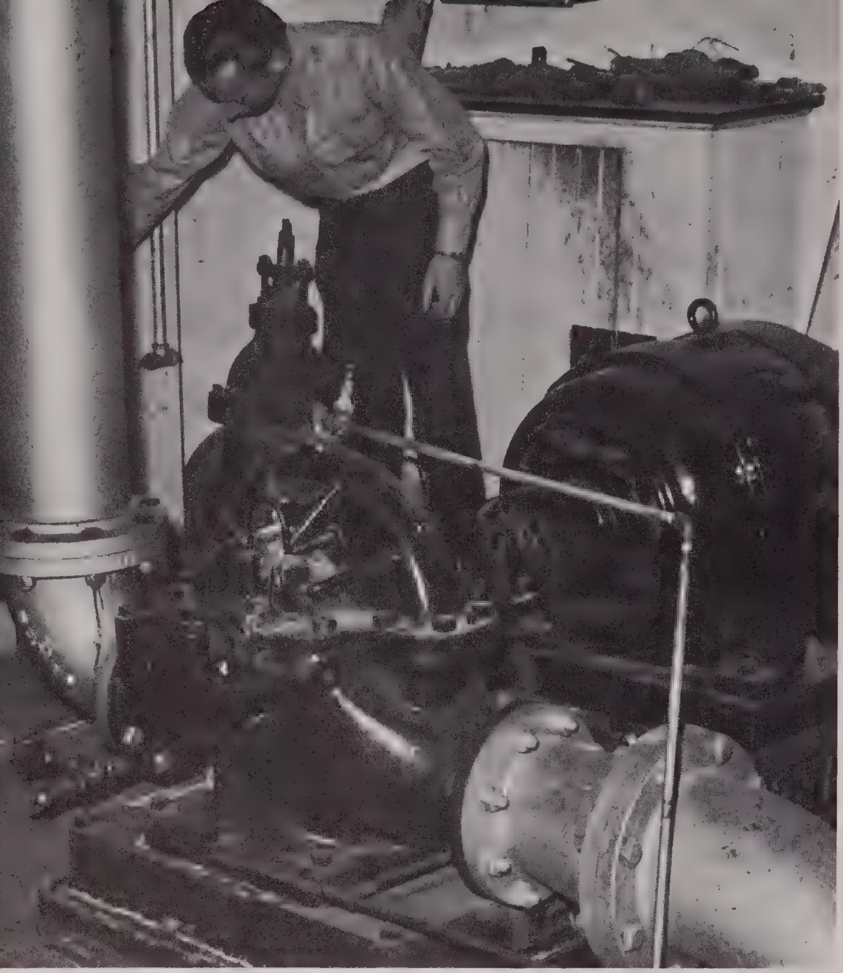
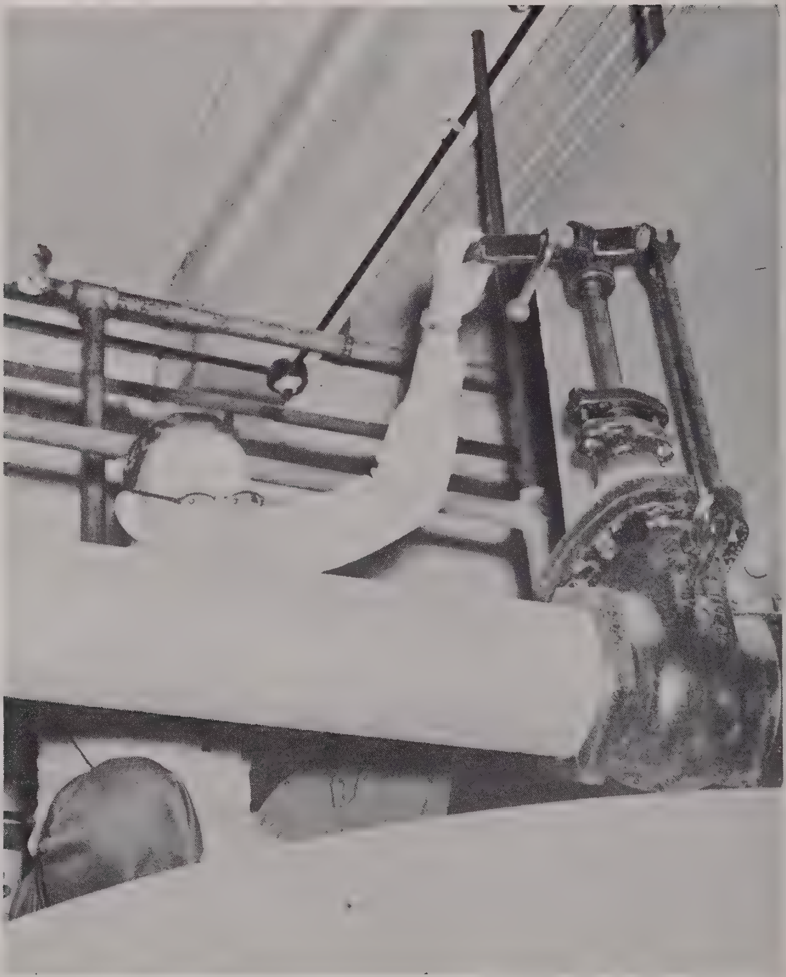
Chemical Engineering

The unlimited horizons of the chemical engineer are drawing more and more students toward this interesting and basic field of engineering. The recent advances made in synthetics and atomic energy have placed this field in the limelight of public opinion. The curriculum at Rose provides a firm background in the principles of chemical engineering from which the young engineer may draw as they are needed.

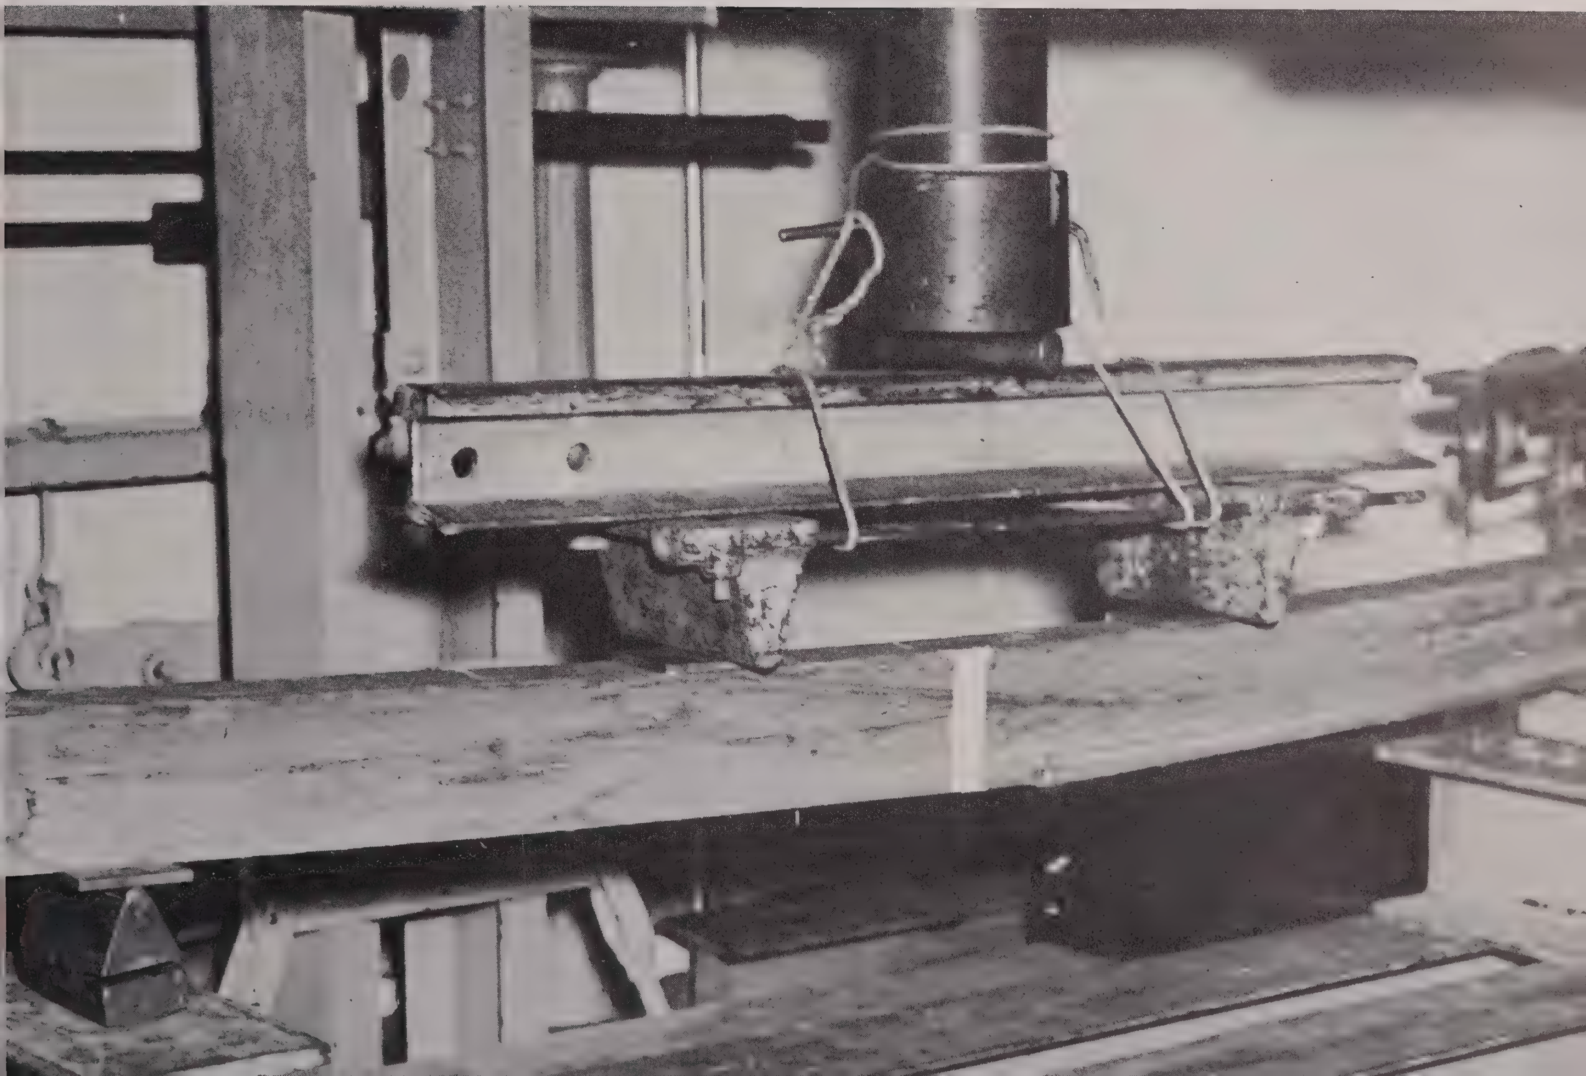






Civil Engineering

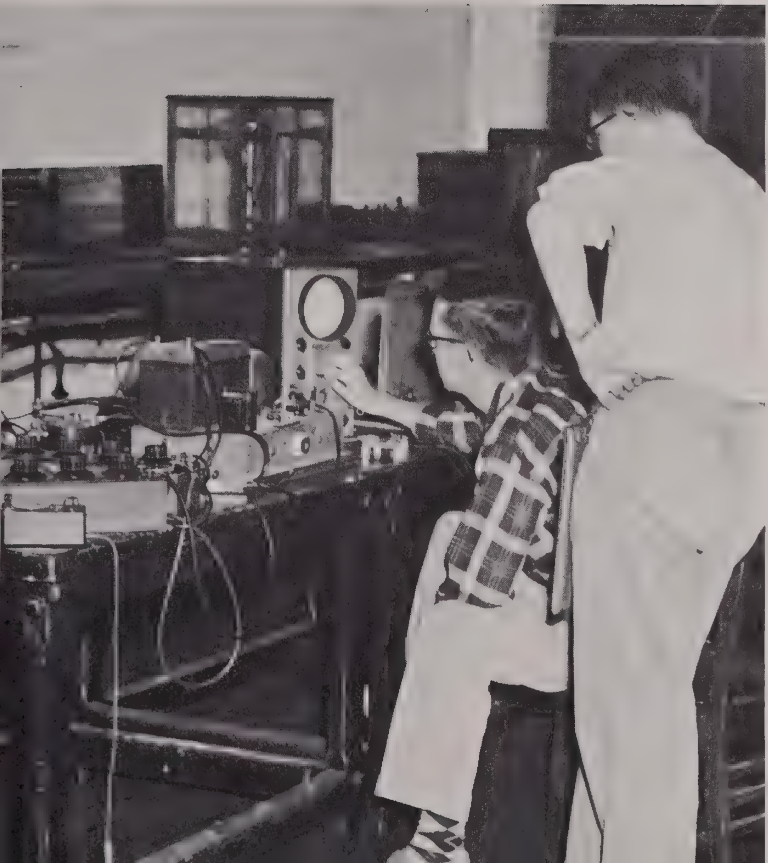
The great buildings, bridges, highways, and other allied structures are a direct result of the principles learned in the field of civil engineering. The tremendous scope of this field necessitates a through grounding in the basic fundamentals of engineering. The great number of specialized fields open to the civil engineer makes this a very lucrative profession indeed.



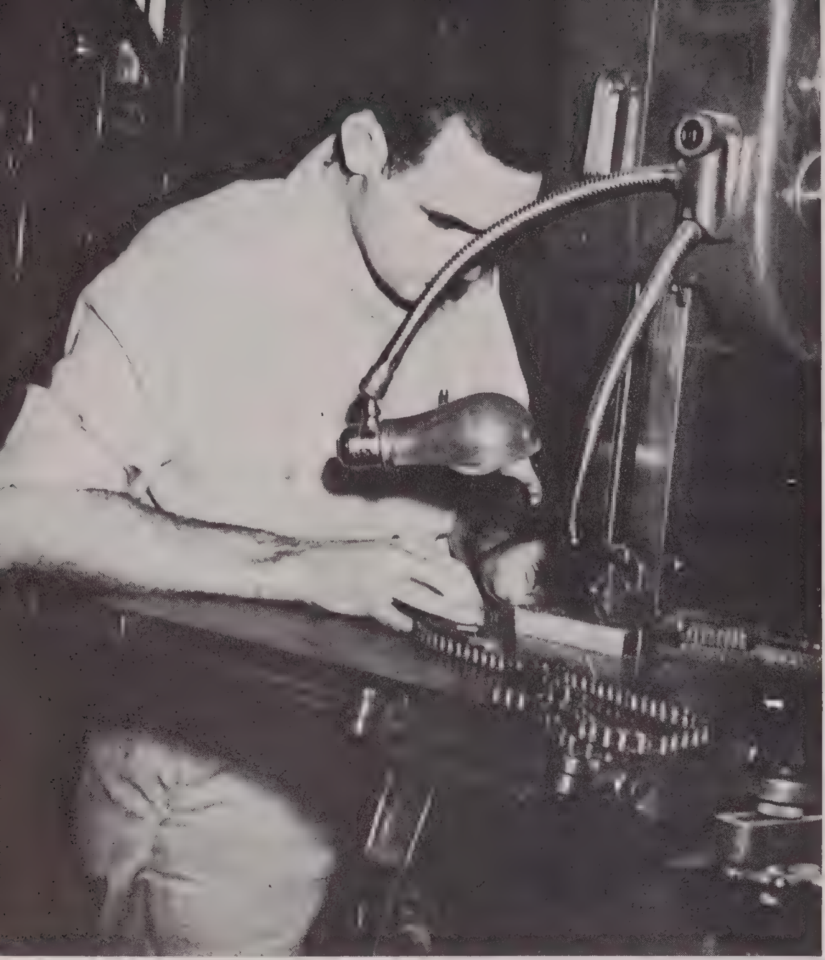
Electrical Engineering

The production, transmission, and distribution of electric power and the utilization of electronics, have become so important as of late that the electrical engineer now plays a leading role in the saga of America's increasing industrial might. Atomic power is rushing to the forefront in the power production phases of electrical engineering to make this field even more diversified and interesting. The widespread use of electronics in computors, in television, in industrial applications, and in many other capacities is drawing an increasingly greater number of engineers into this ever expanding field.

It's Arthur Godfrey Time!

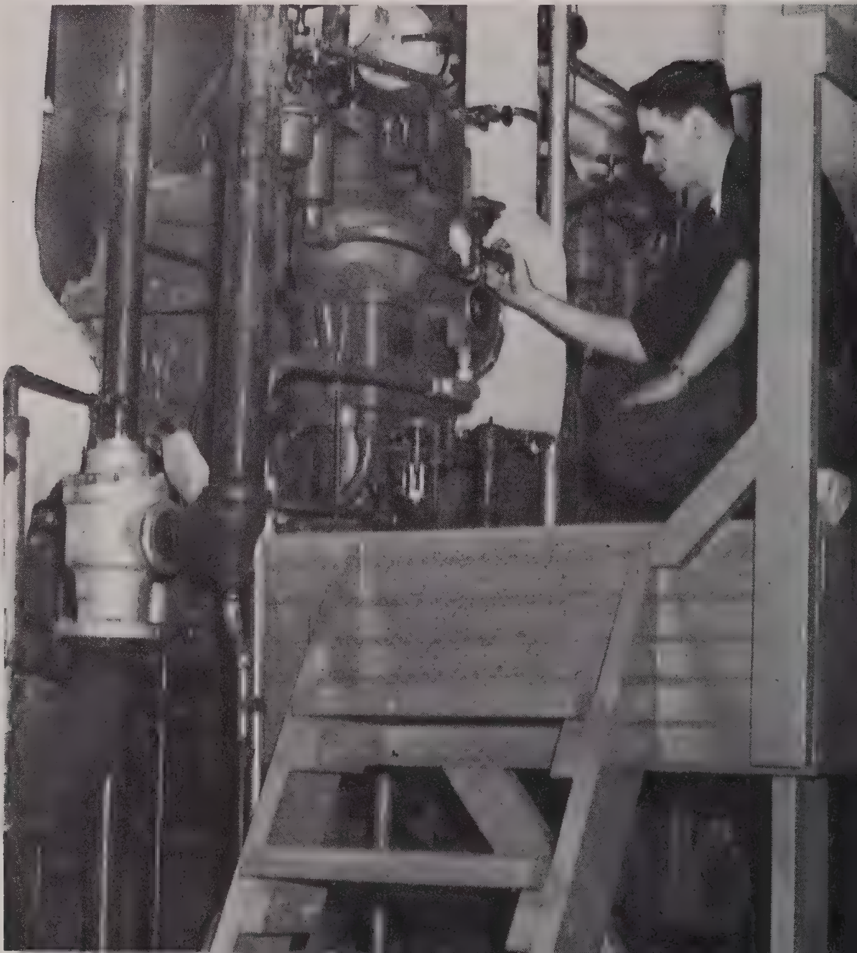


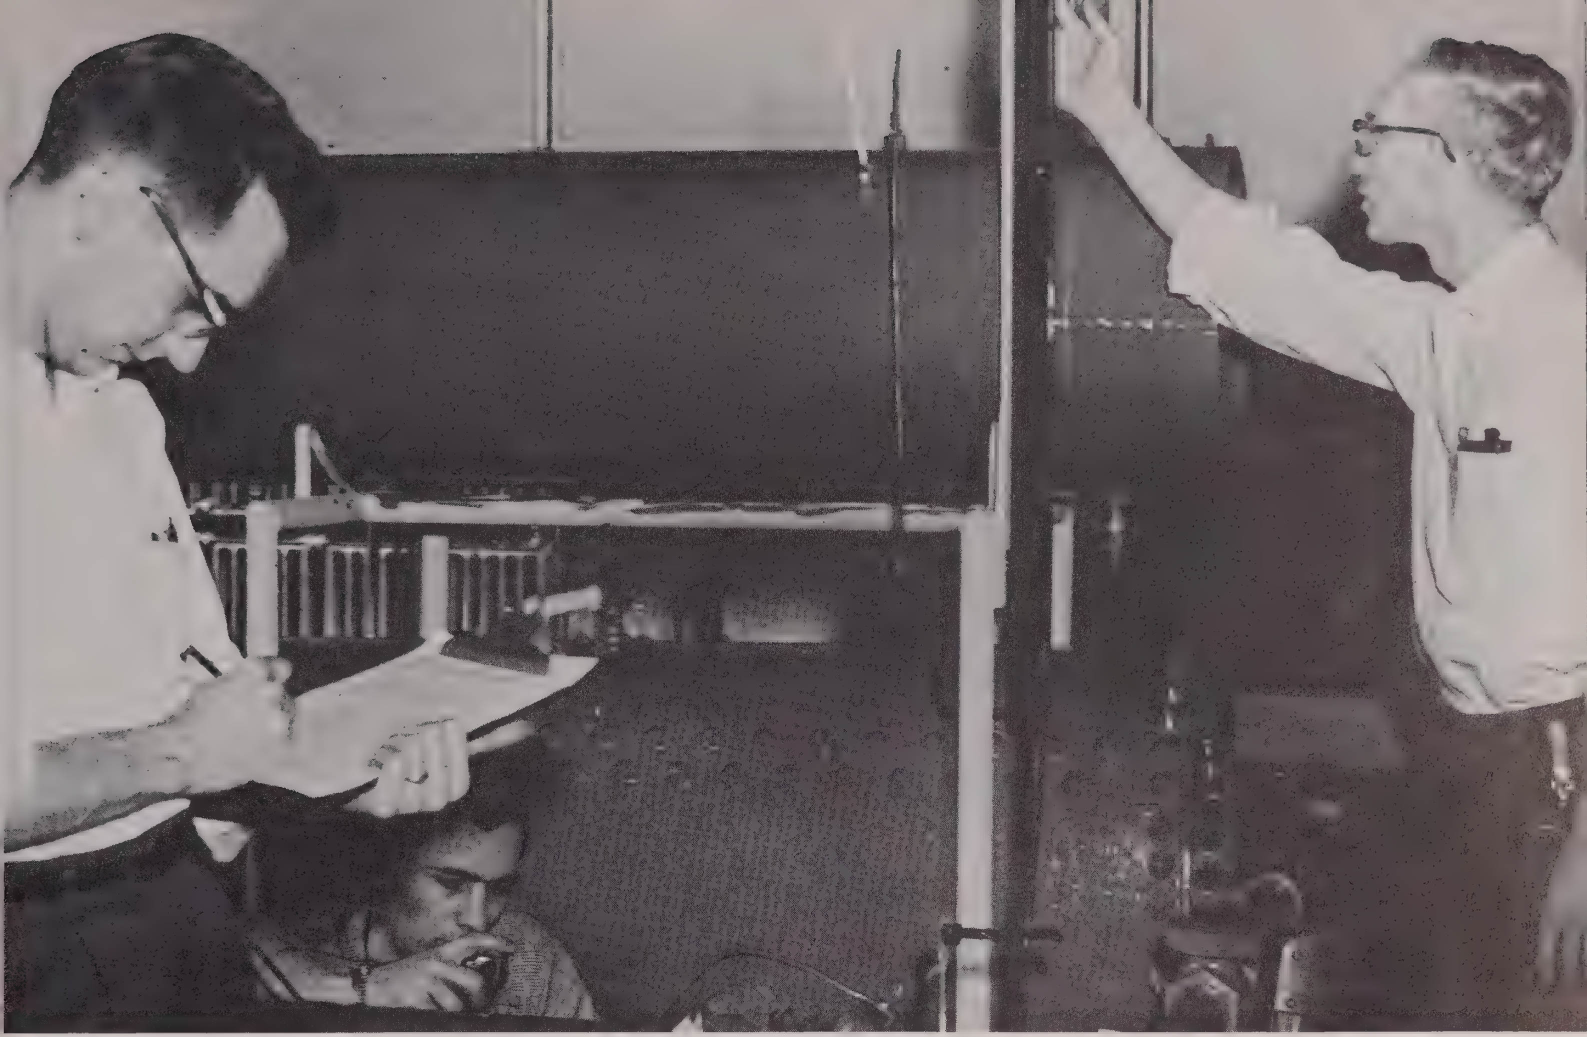
Hark! An electron passes.



Automatic finger-nail clippers

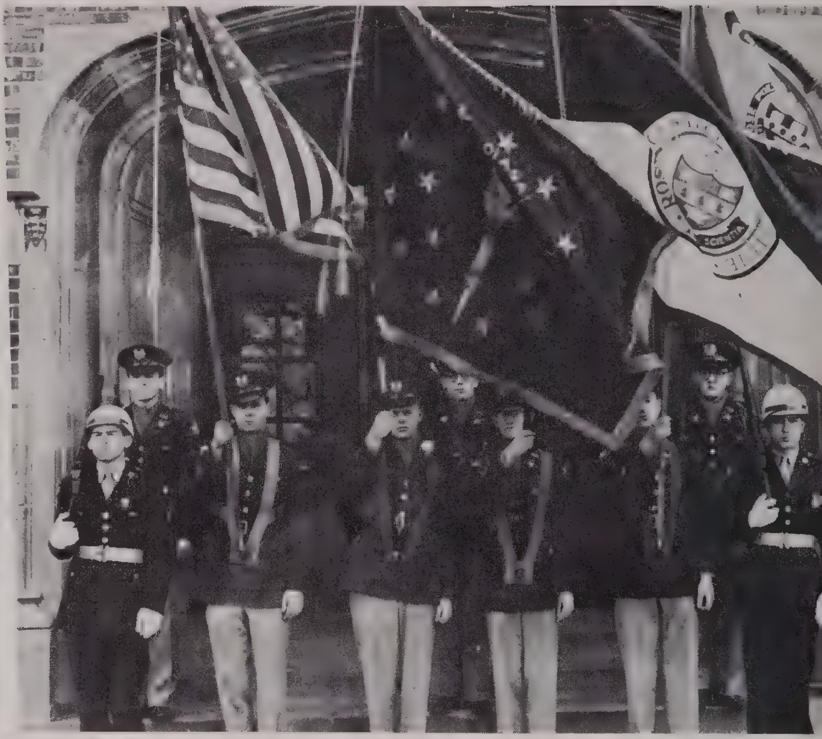
Little man—big machine





Mechanical Engineering

The mechanical engineer transforms different forms of energy into various types of motion, or transfers one type of motion to another. His field is by far most in evidence in this age of machinery. The emphasis placed on the streamlining and functual designing of modern airplanes, automobiles, household appliances, and many other products, has made the mechanical engineer one of the most versatile in the scientific professions.



R.O.T.C.

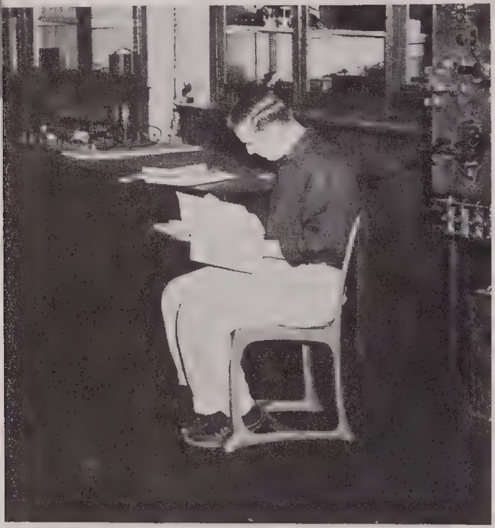
Successful completion of a four year course in Military Science and Tactics qualifies a Rose graduate for a commission in the Reserve Officer Corps of the United States Army Engineers. This privilege was extended to Rose in 1919 when an Engineer Unit was established under the provisions of the National Defense Act of 1916.

The four year course is subdivided into a basic two-year course which is attended by all freshmen and sophomores and an advanced course of the two additional years plus six weeks of summer camp at some recognized army station. The advanced course may be elected only by qualified upper classmen.

The Rose Unit has a fine record of precision and spirit in its participation in the annual Armistice Day and Armed Forces Day parades. An annual federal inspection at which visiting officers from various branches of the United States Armed Forces review and inspect the unit adds not only to the color of the year but also encourages the student to develop his initiative, confidence, and ability.

The Rose Rifles led by Jay Stevens performed expertly on several occasions.

The unit takes part in the annual Armistice Day Parade, displaying its excellence in military drill.



Academics

What knowledge is of most worth? The uniform reply is Science. This is the verdict of all counts. For direct self preservation, or the maintenance of life and health, the important knowledge is—Science. For interpretation of national life, past and present, without which the citizen cannot rightly regulate his conduct, the indispensable key is science. Alike for the most perfect enjoyment of art in all its forms, the needful preparation is still—science. And for purposes of discipline—intellectual, moral, religious—the most efficient is, once more science.

—Herbert Spencer

Shop Practice and Training

Shop Practice

For practical engineering the student needs an understanding of the tools of his profession as well as the basic principles. The industrial arts courses provide instruction and practice with machine tools to familiarize the student with the means and methods used in industrial processes these courses are designed to provide a general background rather than to develop specialized skill.

Engineers Day

1955

The fourth annual Engineers Day was held on March 26th and was followed by Parents Day on the 27th. Although the weather was not as nice as could have been, the show was very well attended and was successful in every respect. Strong student interest and many exhibits, both novel and educational, helped make this years program outstanding.

St. Pat's Day

Although the moving of the freshman-sophomore competition from St. Patrick's Day to an earlier date removed some of the glamour from the traditional engineers' holiday, the St. Patrick's Day Dance highlighted by the beard growing contest proved to be an enjoyable evening for all who attended: Ron Shaw and Gene Blastic carried off the awards for their fine beavers. Ron received a much needed razor while Gene received a pen and pencil set for his growth.

Football 1954

SEASON RECORD

7	Rose	Taylor	12
7	Rose	Franklin	26
26	Rose	Eureka	0
14	Rose	Illinois College	0
0	Rose	Navy Pier	14
16	Rose	Culver-Stockton	21
0	Rose	Principia	31

The Engineers completed their 1954 football season with a record of two wins and five losses. A few bad breaks (literally, Al Merrelli's dislocated elbow in the first game and Terry Vanover's broken nose) combined to change what appeared to be a promising season into a mediocre one. Even so, the Engineers were only one game away from the Prairie Conference Championship, which wasn't decided until the final game of the season.

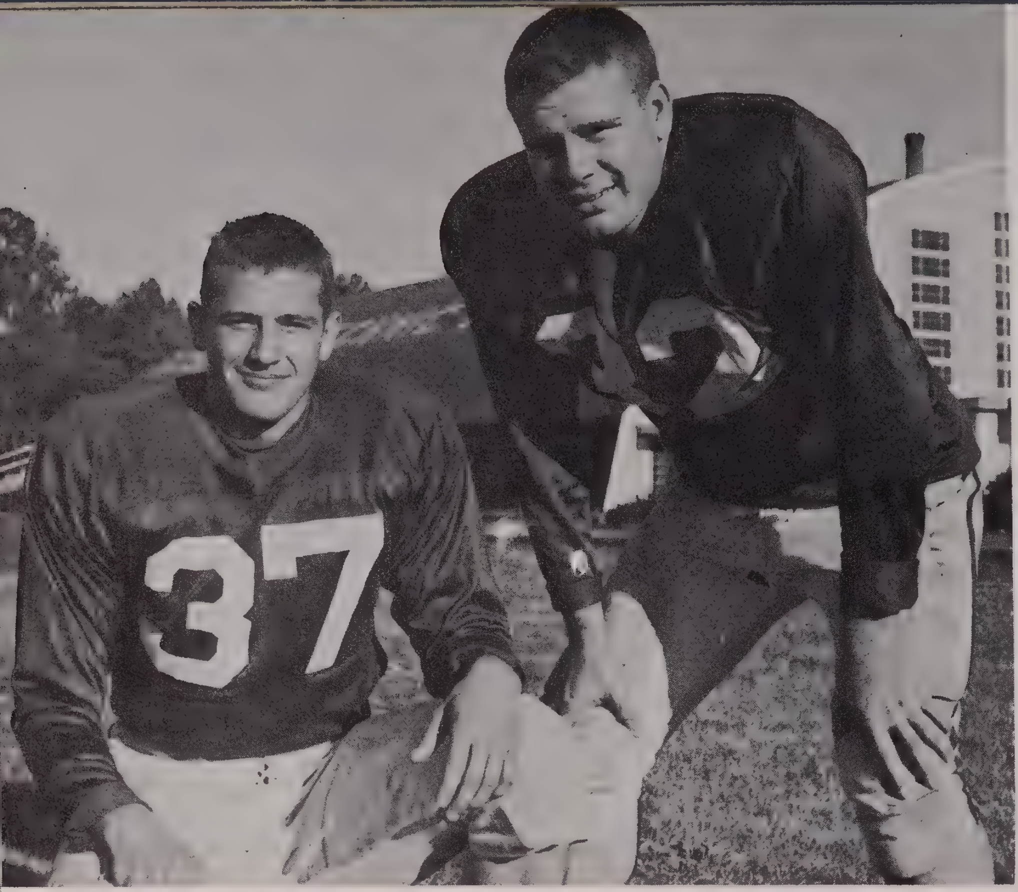
The season opened with state-foe Taylor traveling to Rose and eeking out a 12-7 victory over the Engineers. One of the out standing plays of the season was made by Bob Young in this game when he returned a Taylor punt 88 yards for a touchdown.

The next weekend the Engineers traveled to "Grizzly" country at Franklin, where they recovered a fumble to go ahead 7-6 at the start of the second half. But then the Franklin team suddenly came to life and put across three more touchdowns to win 26-7.

The following Saturday was an open date and evidently the rest did a lot of good, as the Engineers pounced upon Prairie Conference rival, Eureka, 26-0 on the following weekend. The Eureka game found the Engineers reaching "paydirt" in every period, the first time being on a 32 yard runback of an intercepted pass by Owen March.

Homecoming day soon arrived, and with the stands packed with alumni and friends the Engineers met another Prairie Conference foe, Illinois College. In a good display of pigskin skill the Engineers outrushed their opponents 185-72 yards. Terry Vanover and Jerry Garrett scored TD's for Rose and the final score showed a 14-0 victory for the Engineers. At halftime the Rose ROTC drill team entertained with a display of marching skill.

The win streak was broken at Chicago by Navy Pier. The home team drew first blood by scoring in the first six minutes of the game. Later on Samuels unleashed an 85 yard punt return for an apparent touchdown, but the officials called it back, ruling his knee had touched the ground on the 15. On the last play of the game, the home team scored again and the Engineers lost 14-0.



Co-captains March and Samuels

The following Thursday the Engineers traveled to Culver-Stockton where they played under the lights for the first time in Rose history. A 34 yard run by Larry Samuels and a pass from Gene Stoker to Bob Young brought touchdowns for Rose. Fisher broke through the line to nail a ball-carrier in the end zone and to add a two point safety to the Rose scoring. It looked like the Engineers might win in the fourth quarter when Samuels got off a 58 yard run, but he was stopped on the 18 and the touchdown never materialized, leaving the final score, Culver-Stockton 21- Rose 16.

Despite a 2-4 record, Rose was in line for the Prairie Conference championship if they could beat Principia. That however, was something no team had been able to do. In fact, Principia had only allowed two touchdowns all season. The Engineers erorrs proved to be their downfall as Principia scored five times on five Rose errors to win 31-0.

So ended the 1954 season with two wins and five losses. There were many players on this year's team, which was lead by Co-captains Larry Samuels and Owen March, who figured prominately in the Engineers play. Among them were many novices who were gaining experience for the seasons to come. It can certainly be said that what the 1954 team lacked in points it more than made up in spirit.

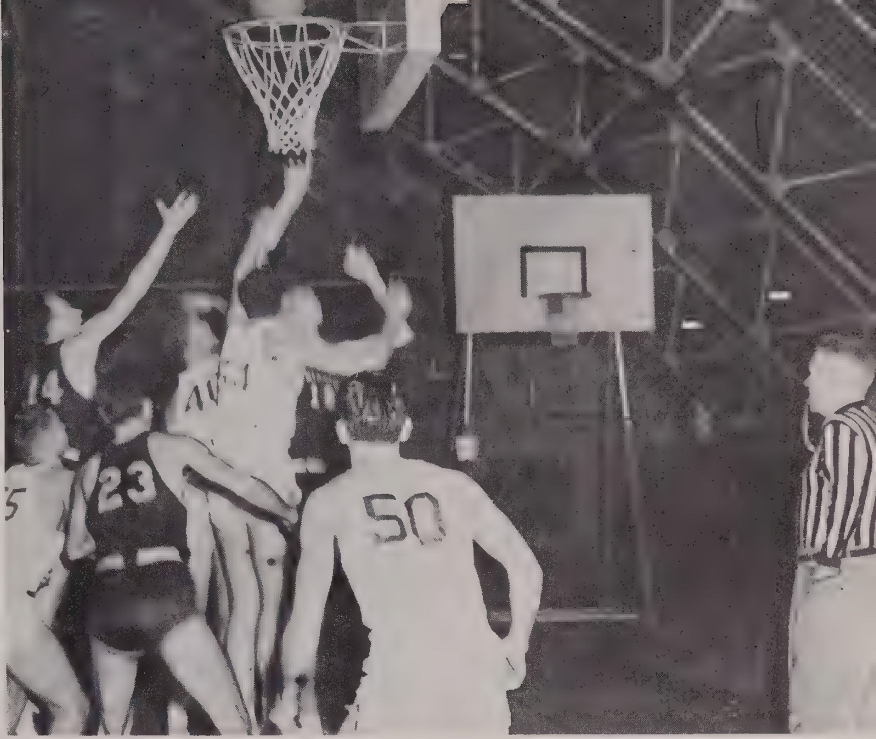
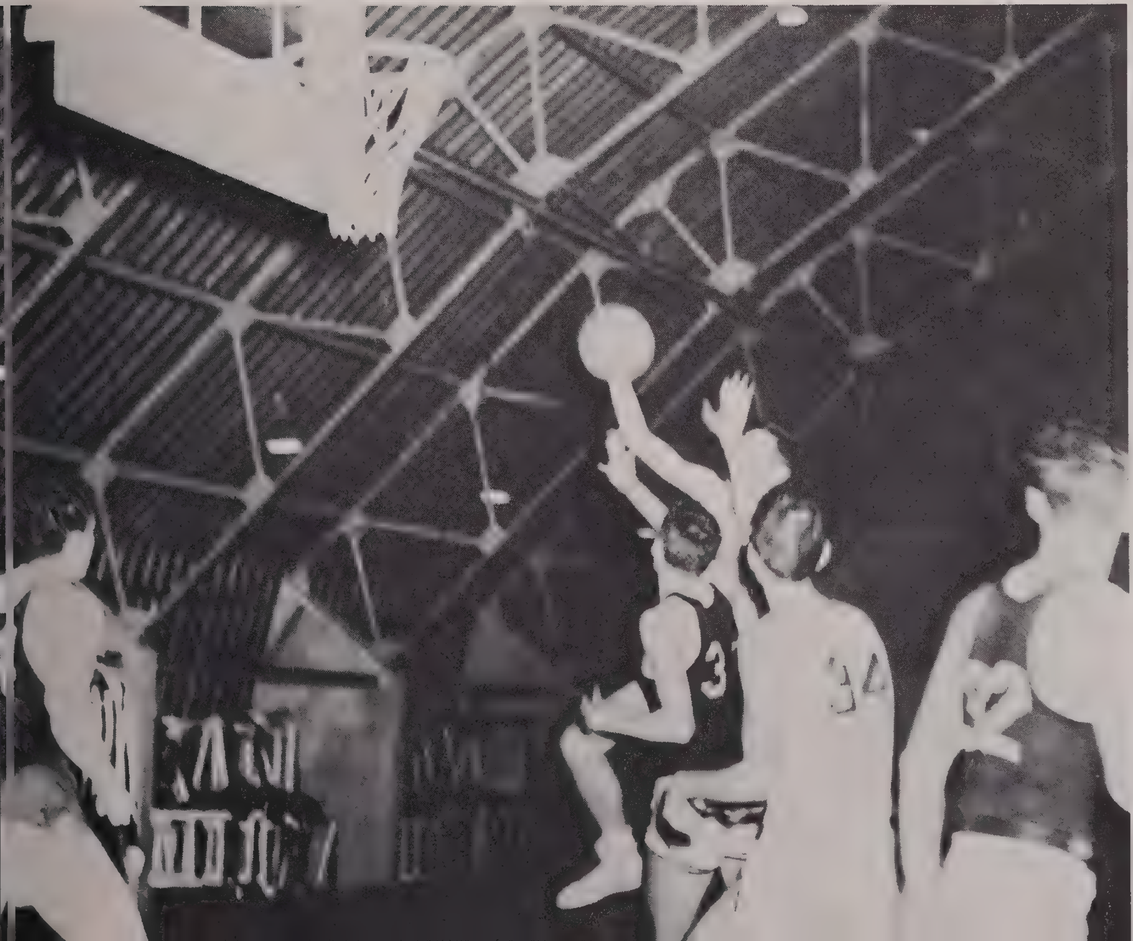
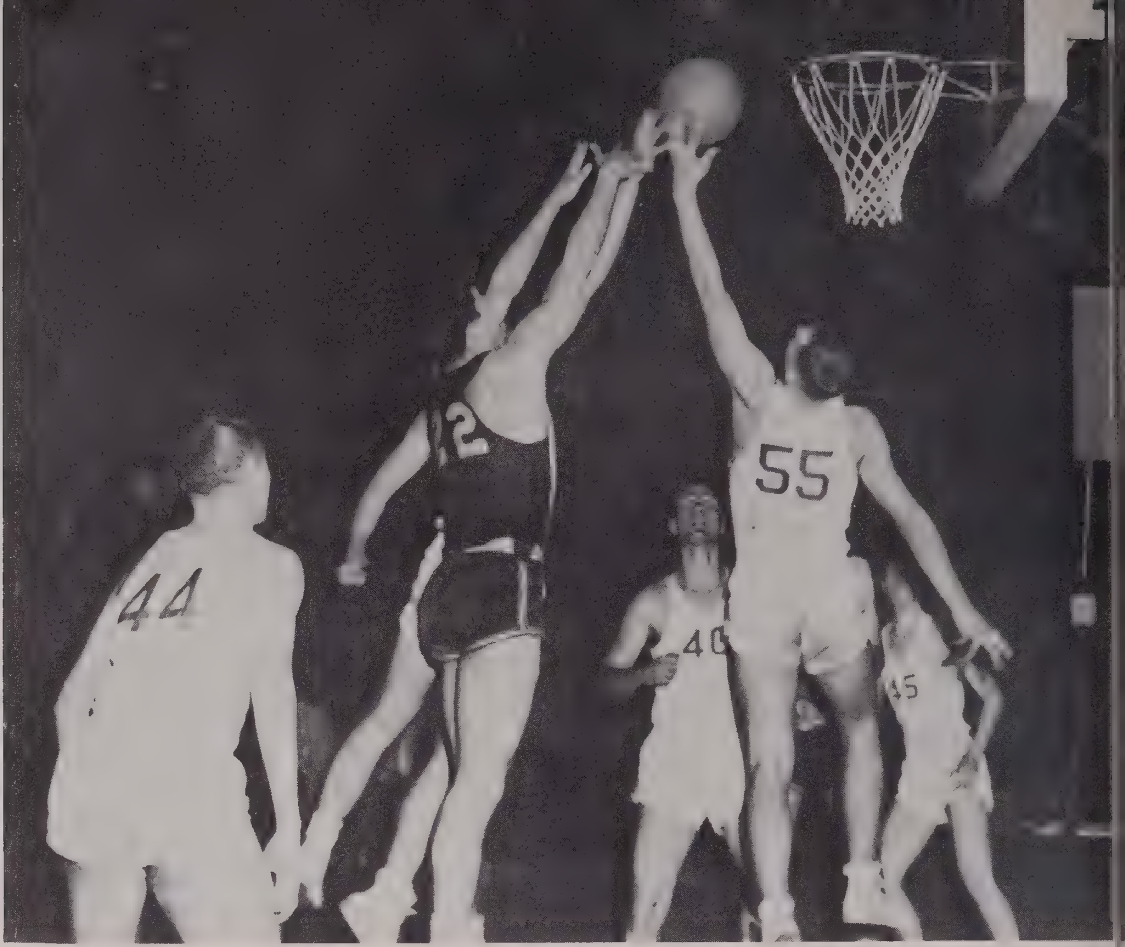
Bright

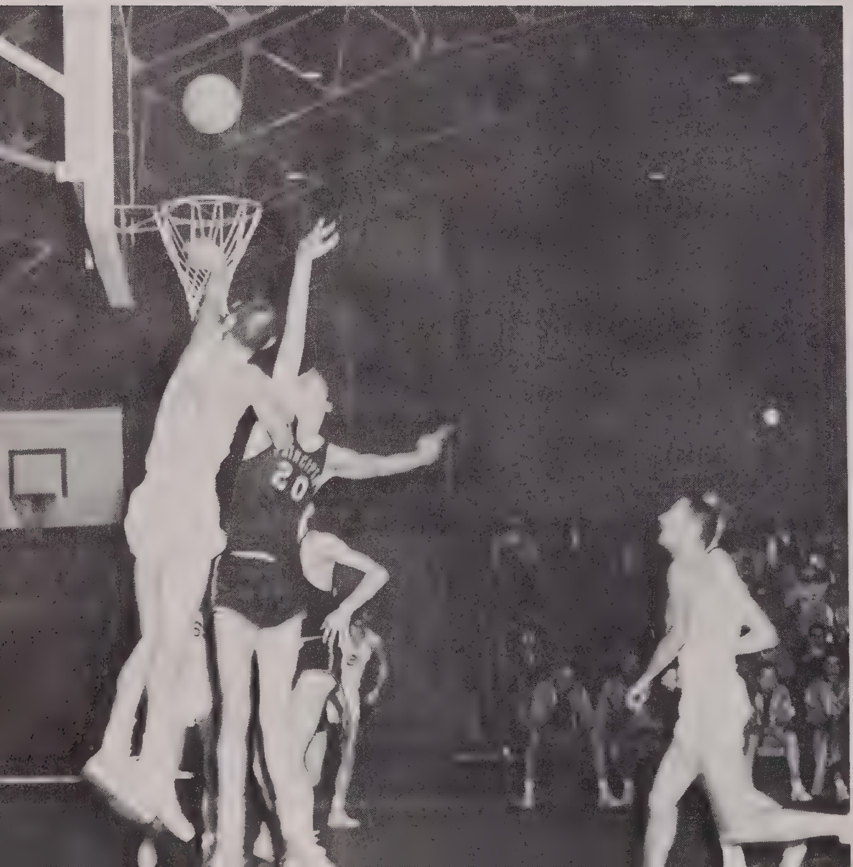
The first of the season saw eight returning lettermen for coach Jim Carr's Engineers. Don Snape and Bob Bright at forwards, Jim Blair at center, and Bob Young, Harold Brown, and freshman Gary Giffel at guards was the usual Rose combination, with Snape and Young as co-captains. Blair was the most consistent scorer, being second in conference scoring when he was lost to the squad at the end of the first semester. With the loss of Blair, freshman Jim Oakes took over the chores in the pivot. Bob Bright and Don Snape continued to pour in jump shots from the forward positions as Gary Giffel and Bob Young were consistent long-range snipers.

The season got off to a thrilling start at Concordia of Springfield when the Engineers came from behind to put the game into an overtime before they won in a game marked with typical early season errors. This was followed by losses to Concordia of Ft. Wayne and McKindree and wins over Eureka and Huntington. The win over high-ranked Huntington closed the season for 1954. The new year saw wins over Springfield and Harris Teachers College, and losses to Illinois College and McKendree before the end of the semester. The McKendree game proved to be the thriller of the year as the Engineers doggedly fought the taller Bearcats through two overtime periods before going down in defeat, 85-81.

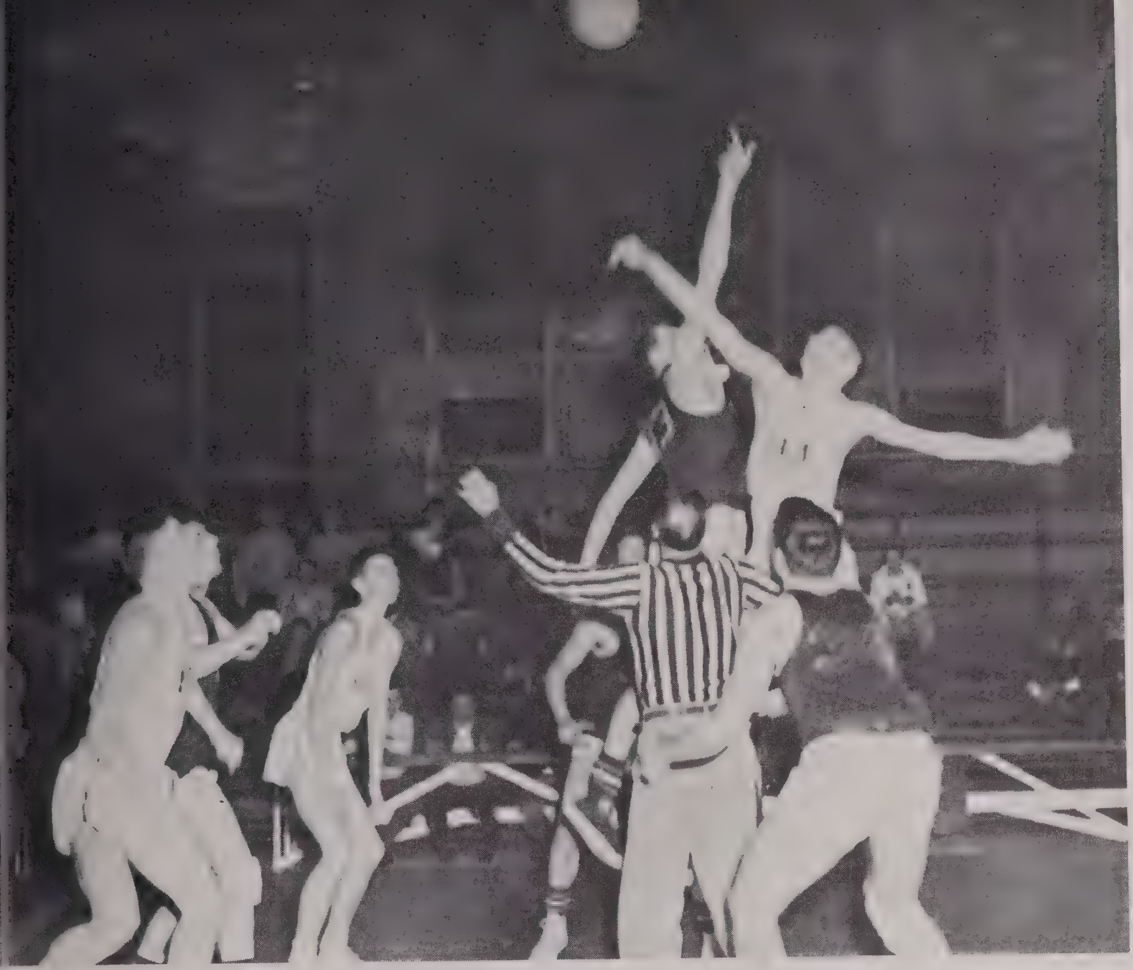








After finals the squad traveled to Principia where they lost a close decision, but on the following night they avenged an earlier loss by defeating Illinois College, 55-51. The Engineers took over in the last minute after the score was tied and scored the four points that proved to be the winning margin. A tall Greenville five outscored the Engineers on their home floor to gain a conference victory, but the following week saw the Engineers in the victory column twice as they outlasted Oakland City on the Oaks home floor and won a decisive victory over Principia.



Coach Jim Carr used the entire Rose squad as the starting five rolled up a 30 point margin midway through the second half in this contest. The Engineers came up with two wins and two losses in their next four contests, finishing the season with a victory over Eureka at home. This gave them a season's record of 10 won and 8 lost, and a conference mark of 6-5.

With only one senior, Don Snape, and two juniors, Bob Young and Walt Johanningsmeier, the team seems to be in a building period and hopes are high for an even better season next year.

Front row: South, Stevens, Vanover, Davidson, Oakes.
Second row: Bitner, Foltz, Sutton, Cella.
Back row: Gaither, Hills, Meredith, Smith, C., Thomas, L.

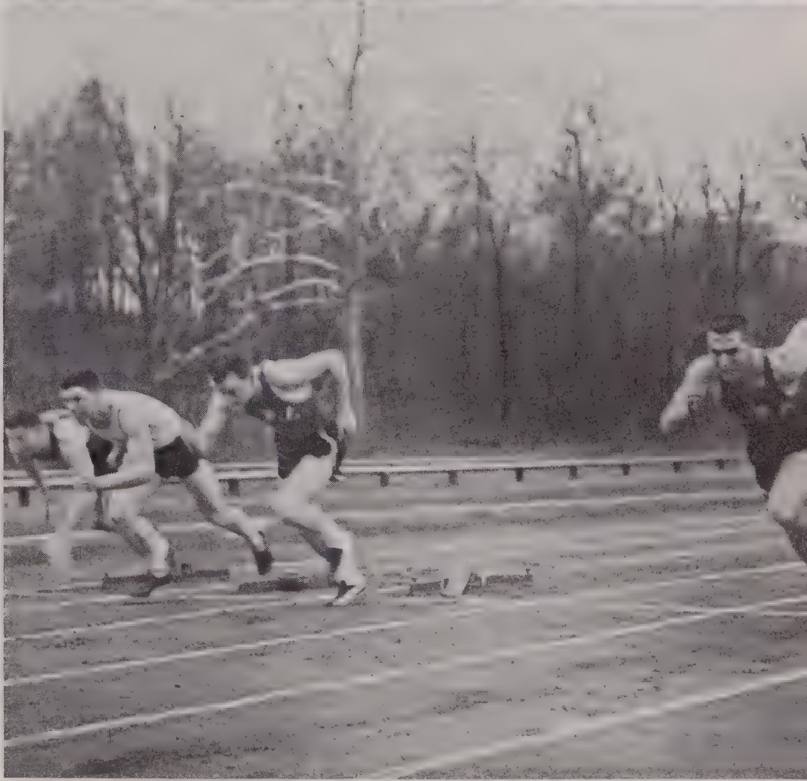
May 5	Greenville
14	Illinois College
17	Franklin
21	Prairie Conference

The 1955 Track season saw one indoor and eight outdoor track meets scheduled. Coach Phil Brown's cindermen turned out early in the spring to work out those aches and pains that come with getting into shape. Before the season began injuries, sickness, and grades had already forced vacations from practice upon various members of the squad. Nevertheless, the spirit of the Engineers remained high and this season will no doubt reflect that spirit.

Heading the squad this year was a truly great competitor, Terry Vanover. Other squad members were Larry Dickson, Bill Gaither, Ron Meredith, Bob Mogle, Milt Sanders, Dick Irey, Tom Clark, Carrol Oakes, Jack Hills, Jay Stevens, Don Lewis, Ernie Davidson, George South, Jack Foltz, Art Sutton, Larry Thomas, Nick Costello, Charles Tolson, Rick Ressler, and Dave Cundiff. This year's Student Manager was Paul Cella.

Participating in their last season were seniors Don Lewis and Bob Mogle.



The Coming of spring to the Rose campus brought with it the renewal of the "American pastime" for another year. A large group of Rose men answered Coach Carr's call for recruits and the prospects looked good for a winning season for Engineer's diamond men. A heavy twelve game schedule crowded into the six week season kept the team on its toes as well as busy.

The 1955 edition of Rose's baseball team was headed by co-captains Larry Rodabaugh, a pitcher, and Al Merrelli at shortstop. This year's team is well stocked with underclassmen who are ready to fill any vacancies that might occur. The members of this year's squad are Dick Hirst, Owen March, Dale White, Don Simpson, Reed Wythe, Bob Hicks, Frank Prybyiski, Tom Zimmerman, Bill Bock, Larry Kirts, Frank Molinaro, Joe Donninger, Gene Bastic, Dale Smith, Roy Kalen, Charles Kallis, Bill Payne, Fred Fowler, Bob Sutton, Jim Tobias, Gordon Whitesell, and Ray Goump.

Back row: Coach Carr, Burtner, Mgr., Sutton, Tobias, Wythe, Przybylski.
Third row: Gompf, Bock, Fowler, White, March.
Second row: Hirst, Zimmerman, Simpson, Kirts, Payne, Dale Smith.
Front row: Kalen, Doninger, Molinaro, Rhodabaugh, Merrelli, Kallis, Blastic.

Intramural Sports

Intramural Football champs: Backfield; Runyan, Camp, Masuoka, Line; Lott, Furlan, Scharpenberg, Elsey, Kirk.

Rodabaugh gets off a pass

1954 saw the start of a more intensive intramural program at Rose under the leadership of Clarence E. Kelly. The first major sport to be played was touch football. Of the eight teams formed the Comets, composed of Ruyan, Gordon, Lott, Elsey, Schapenberg, Masvoka, Camp, Furlan, and Kirk, emerged the victors at the season's end. Director Kelly named a all-star rooster composed of outstanding players from the remaining teams. Those selected were McIndoo, Hirst, Rhodehamel, C. Smith, Bruner, Carpenter, Potts, Rodabaugh, G. Rezek, Pruitt, Kalen, Beck, Kallis, Flangian, and Harris.

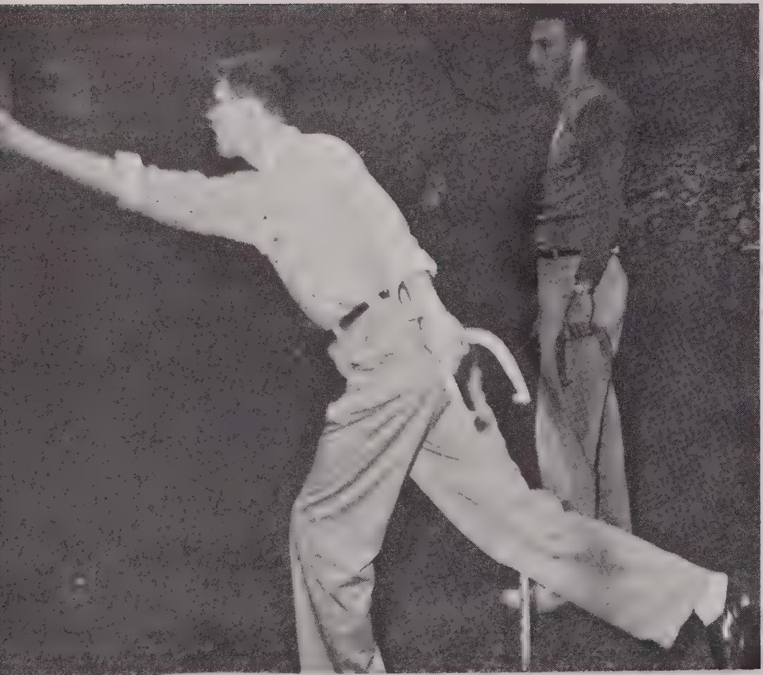
Basketball

Basketball time soon rolled around and there was a large turnout of men to play the hardwood sport. The series was played in two sections, one before finals and the other after the second semester started. The Junior Electricals went undefeated in nine games to win the first section championship. For the second section some of the teams regrouped, but the Junior Electricals kept the same squad and proceeded to win nine straight in the second section for that championship also. The Junior Electricals won two post seasons games against the All-Star team to keep their undefeated record.

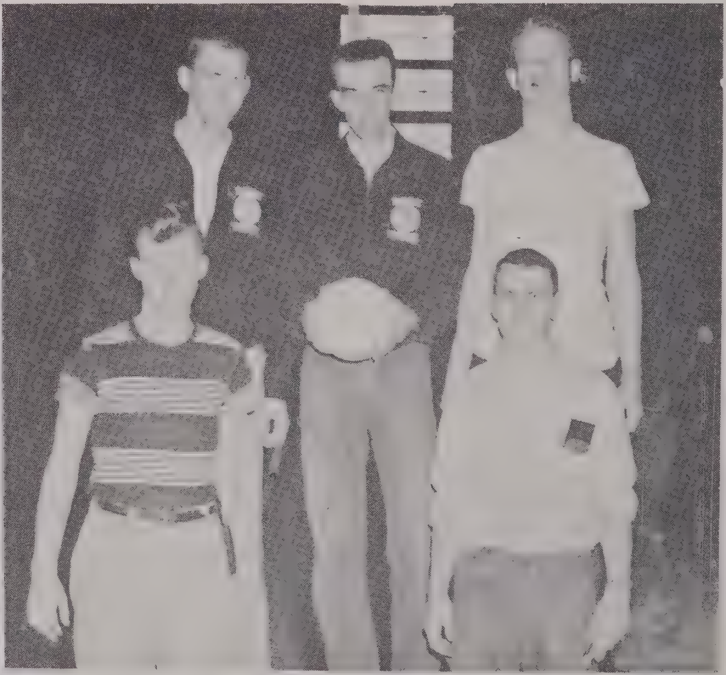
Although the Junior Electrical team was paced by Roy Kalen's high scoring, it was team play that told the story of their success. Kalen's running mate was Larry Rodabaugh at forward. Walt Mc Indoo started at center with Jim Clabro, Gerald Pruitt or Tom Denier as guards. These men were relived from the bench by Stan Carpenter, Art Sutton, Jack Dodson, and Charles Tolson. Although the above lineup often started, it was not unusual to find some of the other members of the team starting. This is the second straight year this team has won the Championship.

Basketball was not the only winter sport that was participated in this year. Volleyball found many followers and here again team spirit and play were the by-words. After many a serve had been made and after many a point had resulted from a well spiked ball, the season drew to a close, and champions were crowned. The members of this year's championship team were Don Lewis, Bill Gaither, Stan Carpenter, Charles Bruner, John Rhodehamel, and Larry Dickson.

Spring brought with it table tennis, horseshoes, tennis, and track. The table tennis palyoffs attracted about 32 entries. In the final analysis Phillip Hermeling proved his skill by taking the championship.

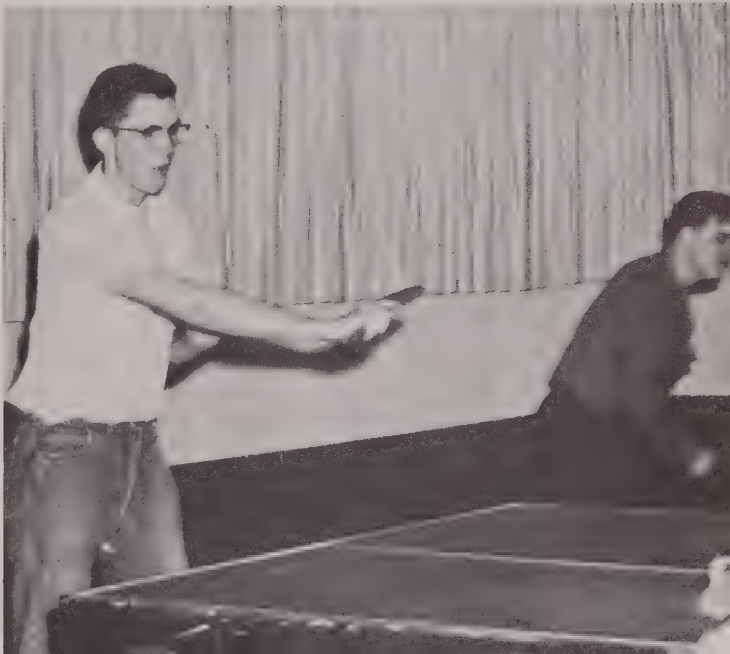


Intramural Volleyball Champs; Members of the team are: Carpenter, Bruner, Rhodehamel, Gaither, Lewis, and Dickson.



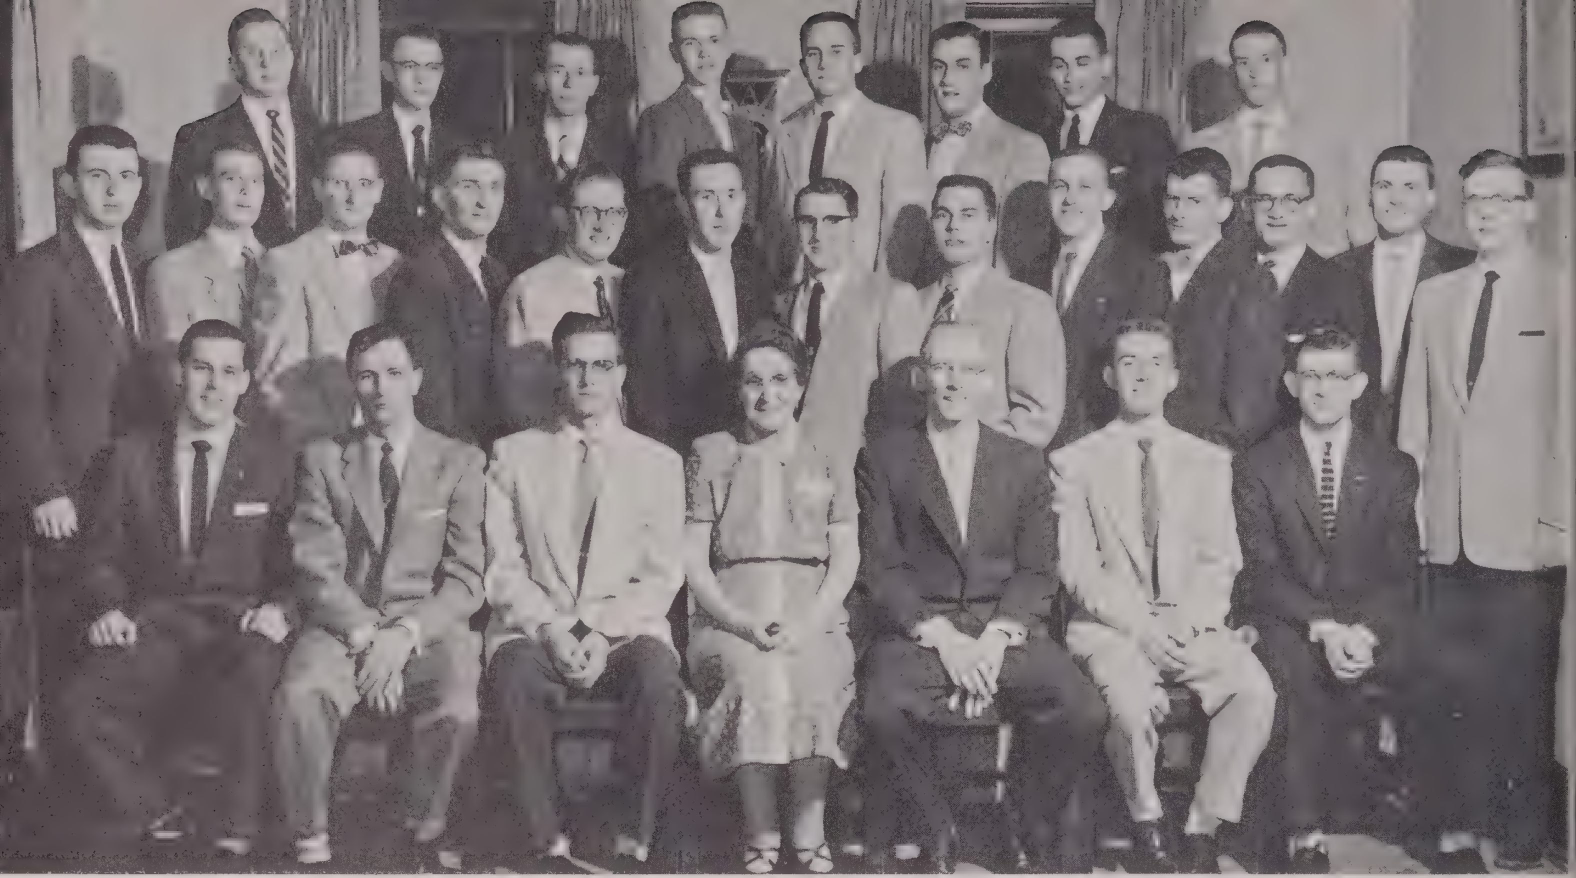
Softball was the final sport played in the intermural program this year. About eight teams representing the veterans, various classes and departments, and the faculty were formed for this season's play.

Like anything else this program can only be as successful as the men participating in it want it to be. This was the first year that the intermural program has been carried on on such a large scale. The men who participated enjoyed themselves and they found an opportunity to work off some of that "steam" that builds up when one has a heavy scholastic load. Next year, with more men participating this program should prove even more valuable to the school.



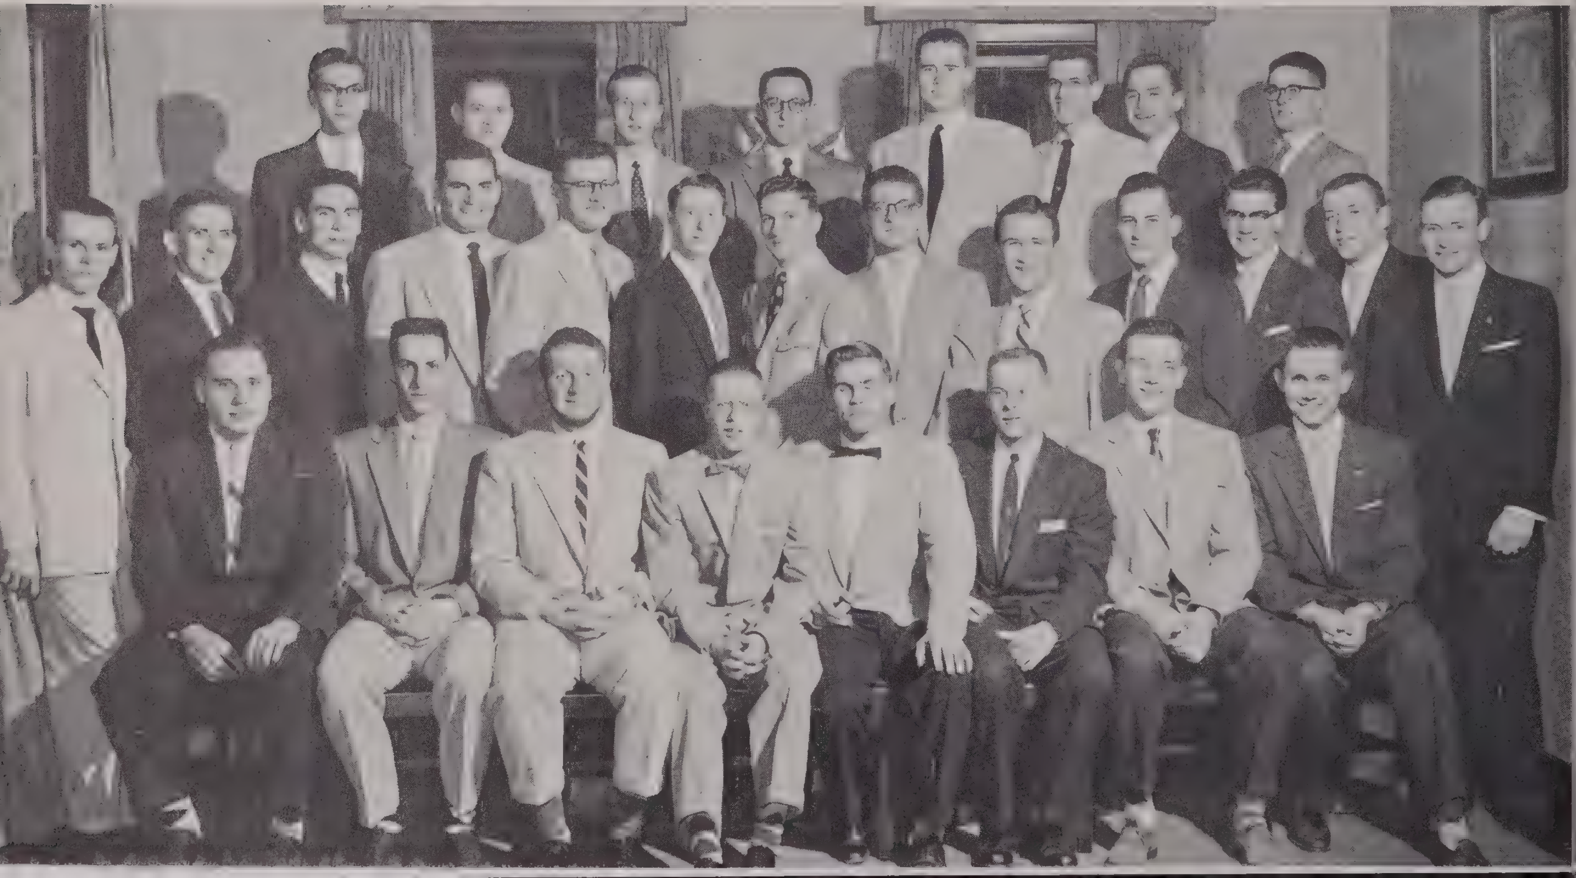
Military Ball

ORGANIZATIONS



Back row: Trueb, Williams, Masters, Burtner, Thomas, D., Weir, Cordill, Larr.
Second row: Schukai, Lanham, Cundiff, Furlan, Vahle, Smith, C., Trotter, Stevens, Kassebaum, Powers, Travis, Bloxsome, Eppert.
Front row: Bitner, Bosshardt, Supp, Mrs. Srofe, Gregory, Grimshaw, Potter.

Back row: Hills, Martin, Junker, Elder, Vendel, Wolfe, Wythe, Billman.
Second row: Kennedy, Foltz, Flannigan, Povlin, Meredith, Thomas, L., Smith, D., Stewart, Hannum, Hayward, Pierson, Arnold, Stott.
Front row: Reeves, Knoy, Grantham, Pebworth, Feiberger, Griffith, Wertz, Reese.



Alpha Tau Omega

OFFICERS

President	John Gregory
Vice-President	Richard Bosshardt
Treasurer	Charles Schukai
Secretary	Kenneth Hannum

The Alpha Tau Omega Fraternity was founded by three young confederate veterans in 1865. The group was efficiently guided by Otis Glazebrook. Through the work of this group the early goal of forming a national organization of brotherhood was attained in a relatively short period of time. There are now over one hundred fifteen chapters spread among the leading colleges in the United States.

The Indiana Gamma Gamma Chapter at Rose was organized November 15, 1893, by F. E. Smith, an Alpha Tau from the Beta Beta Chapter at the University of Alabama. This year we celebrate our sixty-second year at Rose.

This year, as in the past, the Taus have taken an active part in campus activities. Jack Elder and Chuck Hayward serve as editors of the Rose Technic, John Gregory was editor of the Modulus and also president of Student Council, and Dick Bosshardt served as president of Blue Key. Six Taus were members of Tau Beta Pi and nine ATO'S held membership in Blue Key.

Social functions this year included picnics, hayrides, open houses, and informal dances; the highlights being the VMI and I.F. dances. Another big event was State Day which was held at Danville, Illinois. Gamma Gamma won the trophy for best attendance.

Lambda Chi Alpha

OFFICERS

President	Wayne Mason
Vice President	Don Snape
Secretary	Bob Young
Treasurer	Harvey Greene

A combination of beautiful weather and a terrific three-dimensional display which won first prize and the trophy teamed together to make Homecoming a big success this year.

Another highlight of the year was the White Rose dance which was held jointly with the Indiana State chapter. This dance featured the crowning of our "Crescent Girl," who was Miss Joan Parker, a student at DePauw University. Other social season features were open houses following dances, a Thanksgiving dinner, open house for Parent's Day, and a picnic at McCormick's Creek state Park.

Theta Kappa Zeta was well represented again this year in atheletics as well as other campus activities.

Walt Johanningsmier, Lou Hageman, and Terrell Vanover won recognition for their scholastic accomplishment by being "tapped" by the Blue Key fraternity, as well as receiving Honor Keys. In Honor assemblies, Bob Bright, Jack Shumate, Dick Newgent, and Terry Webster were also awarded honor keys.

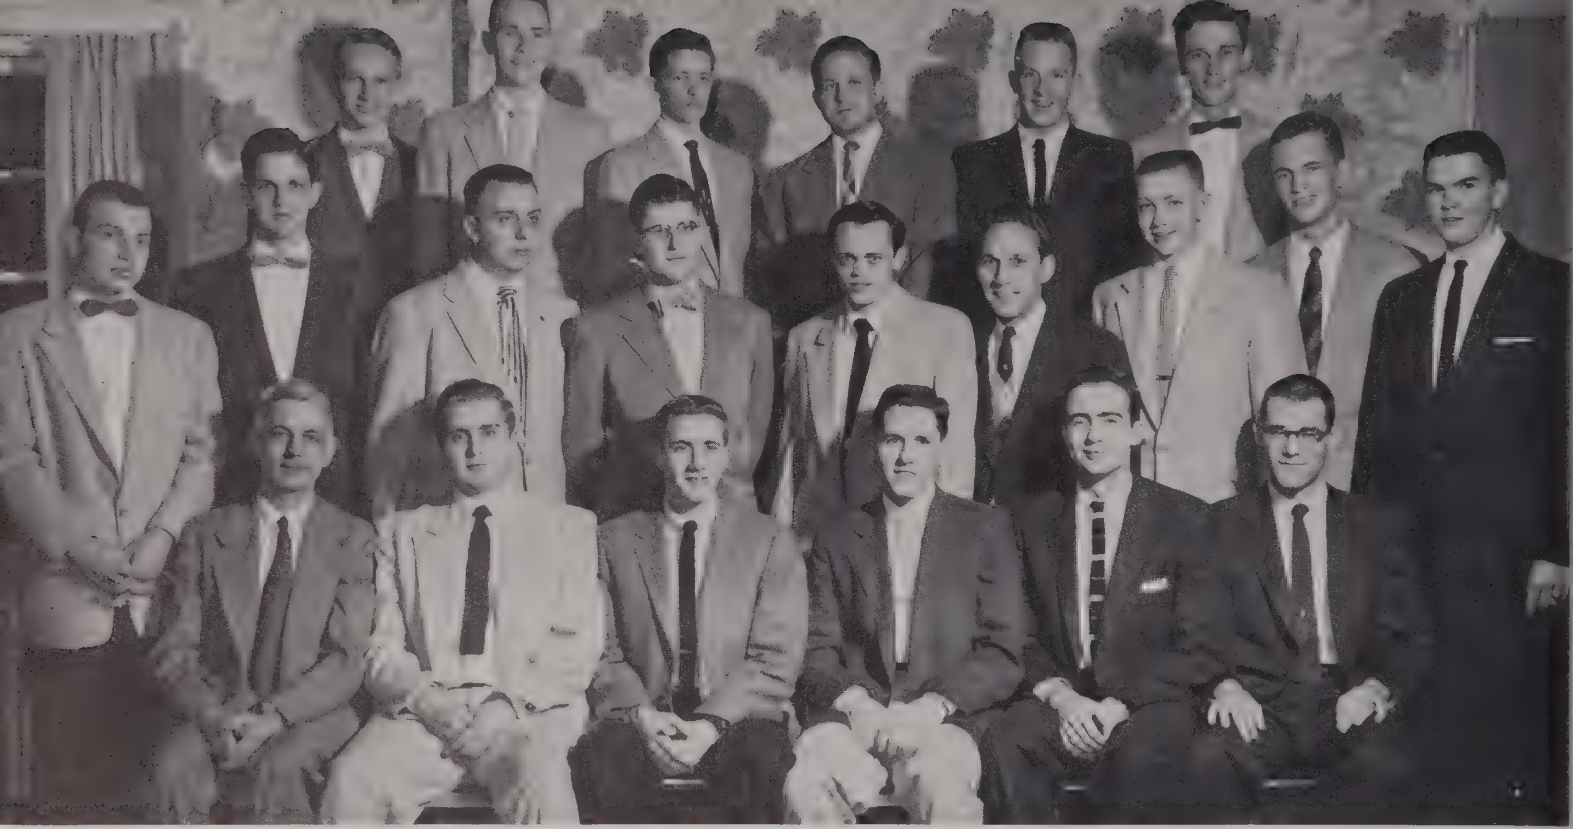
On the gridiron, such members as Harvey Greene, Bill Payne, Bob Young, Frank Molinaro, Jim Calabro, and Terrell Vanover won letters, while Norb Failing served as manager.

Basketball representatives were Bob Bright, Jim Blair, Don Snape, Bob Young, Walt Johanningsmier, Harold Brown, John Bizal, Jim Oakes, Dick Newgent, and Tom Steproe. Snape and Young co-captained the harwood crew and Jack Shumate served as manager.

In spring sports, Terrell Vanover and Jim Oakes ran track and Don Simpson, Bill Payne, Frank Molinaro, Joe Donniger, and Tim Zimmerman played baseball.

Back row: Brown, Bizal, Payne, Harris, Massey, Rose.
Second row: Oakes, Blair, Scofield, Newgent, Pugh, Roach, Koontz, Ressler, Small, Cook, Chambers, Failing.
Front row: Simpson, Bright, Zimmerman, Hoak, McDonald, Goetsch, Shumate, Steproe.

Back row: Lockhart, Hughes, Webster, Greene, Hackett, McCullough, Hall.
Second row: Young, Teague, Fromholz, Ritchie, Johanningsmeir, Bruner, Chinn, Vanover, Norton, Mason, Binford.
Front row: Hart, Beard, Ross, Hageman, Snape.



Back row: Durrell, Deck, Gaughan, Boring, Wallace, Beckes.
Second row: Williams, D., Crum, Allinder, Smith, H., McGuire, Kovener, Wegrich, McBride, Knipple.
Front row: Mr. Bennett, LaPosa, Abersold, Carrell, Kirk, Whitner.

Back row: Bradshaw, Kellam, South, Fischer, Wolstad, Hartley, Moeller, Clark.
Second row: Mrs. Sylvia Grey, Hebb, Matthews, Fordyce, Hirst, Cunningham, Mrs. Cora DeGraff.
Front row: Cross, Sharp, Boyer, Irey, Tatooles, Freers.

Sigma Nu

OFFICERS

President	Jerry L. Hebb
Vice-President	LeRoe B. Kellam
Secretary	Richard Mathews
Treasurer	Thomas Diener

Beta Upsilon Chapter of Sigma Nu again writes a chapter of history at the end of its sixtieth year on Campus. Scholastically and extra-curricularly the brothers of Sigma Nu distinguished themselves. Joe Leppert and Art Sutton were tapped for Tau Beta Pi; while George Rezek, Art Sutton and Myron Clark were chosen for Blue Key.

Athletically Ray Fischer, Jim Tatooles, Bob Woldstad, Owen March, Art Sutton, and Carl Cunningham saw action with the Football squad; while Art Sutton and George South covered the track events with Dick Hirst and Owen March active on the baseball team, managed by Don Wood.

Proudly Sigma Nu displays her trophies which were won in the interfraternity games of football and basketball.

Again this year the big event was the VMI dance held in conjunctin with ATO and TX fraternities.

A new pledge class already is adding its strength to fill the void created by the graduation of a great class of Seniors who have given this chapter the necessary leadership and fellowship.

Theta Xi

OFFICERS

President	Wally Schramm
Vice-President	Bill Scharpenberg
Treasurer	Doyne Granlund
Secretary	Gene Mrava

This year's social calendar started off with our annual Alumni Banquet and Stag at Homecoming. This was followed in December by the Christmas Dance.

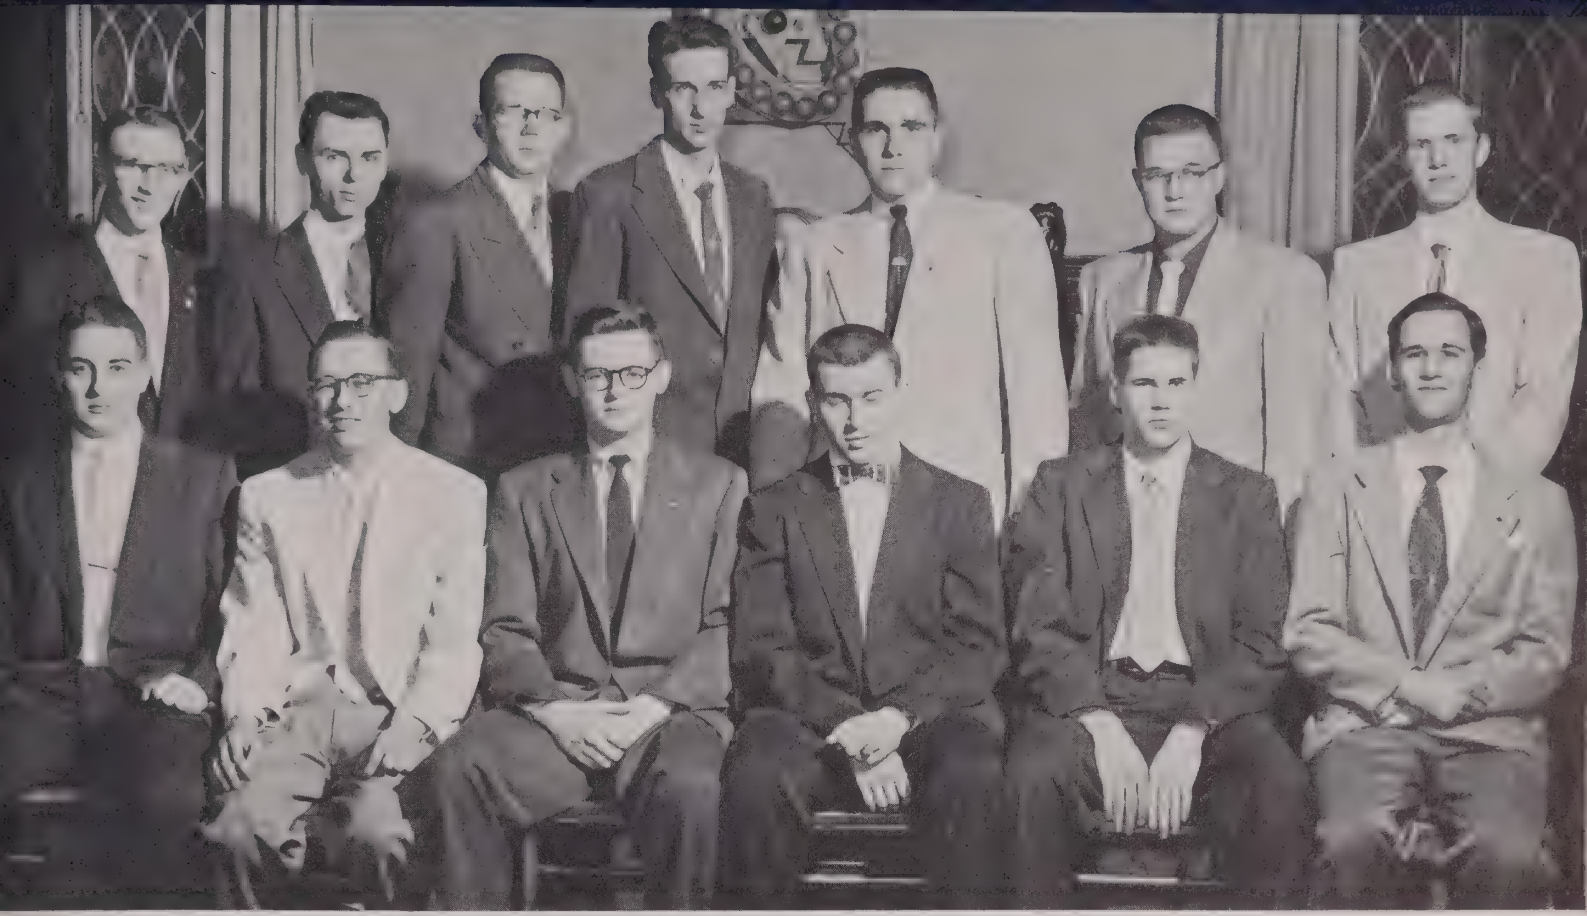
The next few weekends were spent industrially in repainting the house inside and out and in fashioning a recreation room in the basement. During this general "cleaning up operation", we were honored by a visit from our national president, M.S. McNay, and a group of other officers from St. Louis.

Kappa faired well during the forthcoming rush by obtaining 12 pledges.

The next, and top social event, was our annual pledge dance, the Bowery Ball, which was enjoyed by all who attended. Our social calendar for the year was topped off by an enormous fish fry and picnic held on the banks of the Wabash.

Kappa was well represented in extra-curricular activities. There were nine TX's that participated on the football team as well as the senior manager. Merrelli was elected as co-captain of next year's team as well as being co-captain of this year's baseball team. Three other Kappas' also were active in this sport. Mrava was treasurer of the SAME as well as being assistant commander of the Rose Rifles. Seneff was president of the ASCE professional society. On the ROTC Battalion Staff, Lai was S-1 and Masuoka was S-3. The chapter also had ten members of the R-Mens Association. Kappa was well represented on the Modulus staff, Glee Club, Radio Club, Camera Club and Rifle Club.

The year's activities were dimmed by the untimely news of Brother Joe Buscher's tragic death. Joe was a June, 1954, graduate and an active Theta Xi. A memorial trophy has been established in Joe's memory and will be awarded annually to the outstanding pledge.



Back row: Gomph, Waggener, Seneff, Wilcox, Boesenberg, Came, Fisher.
Front row: Bailey, Pejril, Ogden, Tobias, Potzler, Marshall.

Back row: Masuoka, Blastic, Coma, Bock, Scharpenberg, Granlund, Moore, Merrelli.
Front row: Pruess, Lai, Solmundson, Schramm, Mrava, Denny.

Duet on a typewriter.

The first Modulus was published in 1892 by the senior class. The job was kept in the hands of the seniors until 1896 when the responsibility was placed upon the junior class and was published at irregular intervals by the juniors until 1929. In 1931 the staff organization and publication procedure were changed. At this time the policy of picking the staff from the whole student body was started and has continued since.

It is the aim of the staff to provide a permanent record of 1954-55 school year. We hope this record will serve to bring back treasured memories of what will undoubtedly be a memorable time for all of us.

The Modulus on the assembly line.

Some day this mess will be an issue of the Rose Technic.

The Rose Technic, monthly student publication, has been published continuously since June 12, 1891. The magazine is a member of the Engineering College Magaiznes Associated and has ranked among the leaders every year. The E.C.M.A. grades each college magazine for its make up, editorial sections, photography, news interest, and numerous other qualities. With every publication the Technic has ranked high in every department.

Such a record is due to the concentrated effort of Rose men who are proud of their school and its activities, and who are willing to work hard to see that high standards are maintained.

The Technic attemps to bring something of importance and interest to the student body each month. For those who wish to keep up with industrial developments, there is an article entitled "Research and Development." Each publication also features a student article of a technical nature. The magazine also contains the current happenings of school life in the form of articles about fraternity affairs, alumni news, and campus life.

Examining the finished product.

A.S.M.E.

The Rose Polytechnic Branch of the American Society of Mechanical Engineers provides for the senior and junior members of the M.E. department an opportunity to discuss current problems and developments in mechanical engineering. Each member receives monthly a copy of "Mechanical Engineering", published by the parent society.

Activities include local plant inspection trips, the regional convention, and the annual pig roast.

A.S.C.E.

Just as civil engineering was the first type of engineering, the A.S.C.E. was the first of the engineering societies to be founded. The national society was first formed in 1852. It was not until 1927, however, that the local chapter was organized at Rose. The student chapter is sponsored by the parent society which enables students in the civil engineering field to become acquainted with their chosen profession.

Pictures are: Lott, Camp, Professor Hutchins, Dahnke, Cooper, Gaither, Jones, Newgent, Masuoka, Stewart, Briggs, Taylor, Phegley, Seneff, Woehler, Travis, Boller, Lai, Harris.

Pictured are: Brown, Elder, Dyer, Foltz, Shumate, Newgent, Pebworth, Rhodehamel, Bruner, Hayward, Burtner, Myrick, Vanover, Masters, Small.

A.I.CH.E.

The American Institute of Chemical Engineers, represented in the Rose student branch, sponsors such activities as plant trips, hayrides, scientific films, regional meetings, and the ever enjoyable trip to the brewery. The Rose chapter was founded in 1937 and has been active continuously since that time.

A.I.E.E.

The electrical engineering profession of the world is represented in the American Institute of Electrical Engineers. The A.I.E.E. was founded 1885 and the Rose Chapter was granted its charter in 1911. Today there are over one-hundred and thirty chapters in the leading technical colleges and universities of the country. Films, field trips, and social gatherings are enjoyed by the group as well as meetings and discussions of a technical nature.

Pictured are: Pugh, McCullough, Smith, H., Ennis, Hansford, McIndoo, Boring, Eppert, Johnson, Richardson, Carpenter, Mr. Smith, Neal, Sutton, Matthews, Schukai, Scott.

Back row: Gordon, Hannum, Va e, Bosshardt, Schukai, Llewellyn.
Front row: Supp, Tatooles, Pow s, Hall, Wood.

Blue Key

Since its arrival on the Rose Campus no organization of students has done more for the benefit of the school than has Blue Key. During the course of the year Blue Key will give a smoker to better acquaint the freshmen with Rose, supervise the freshman-sophomore activities, plan parents day and engineers day, stage the St. Pat's Day Dance, carry out the faculty evaluation poll, and join with the faculty to work out many of the problems which develop. Rose has something to be proud of in the accomplishments of Blue Key.

Tau Beta Pi

No honor is more highly coveted by engineering students than that of being initiated into the honorary scholastic fraternity, Tau Beta Pi. The organization was founded in the year 1885 at Lehigh University and came to Rose in 1928. Since that time the Tau Beta Pi key has been the goal of every Rose student with the desire to be a better than average engineer.

Back row: Mason, Vanover, Hackett, McGlone.
Front row: Potts, Elliott, Branson, Gregory.
Not Pictured: Supp, Bosshardt, Llewellyn, Lott, Smith, H., Lewis.

Members are: Gregory, President; Wood, Vice President; Rezek, Secretary; Llewellyn; Hannum; Johnson; Webster; Travis; Cook; McCullough; Vahle.

Student Council

Student Council is the student governing body of the campus. The councils main function is the distribution of the student fund to the various school organizations. Among its other functions are the conductions of class elections, the awarding of student honor keys, and the reviewing of problems of its member organizations.

The purpose of the honor key is to convey to outstanding members of the student body some of the recognition which they deserve. Student Council awards the keys on the basis of a point system to those students who have worked outside of the classrooms for the betterment of the school. The large number of men who possess these keys is an indication of the spirit which has given Rose an extracurricular program which compares favorably with the largest universities.

Honor Men

Pictured are: Smith, H., Cross, Youn
Kirk, Rezek, Vanover, Willia
Smith, C., Tatooles, Bright, Biz
Ross, Rhodehamel, Carpente
Gregory, Johanningsmeir, Newge
Goetsch, Shumate, Pebworth, Joh
son, Payne, Mason, Eppert, Rod
baugh, Simpson, Wertz.

Front row: Webster, Failing, Briggs, Asbury, Friel, Goetsch, Bizal, Bright, Neal.
Second row: Shumate, Ambuehl, Carpenter, Newgent, Fischer, Sutton.
Back row: Ross, Ressler, Letsinger, Chinn, Pugh.

Glee Club

The Glee Club under the direction of Miss Gertrude Meyer has just finished one of its busiest years making over ten appearances at high schools, colleges, and dinner meetings throughout the state.

Rifle Club

The Rifle Club combines a club with a varsity sport. Not only does this club compete in shoulder to shoulder matches and postal matches, but it is also the only team in school which competes against well known colleges and universities.

Pictured are: Hohnson, Major Hov l Whalen, Dyer, Leavitt, Bar t Hippensteel.

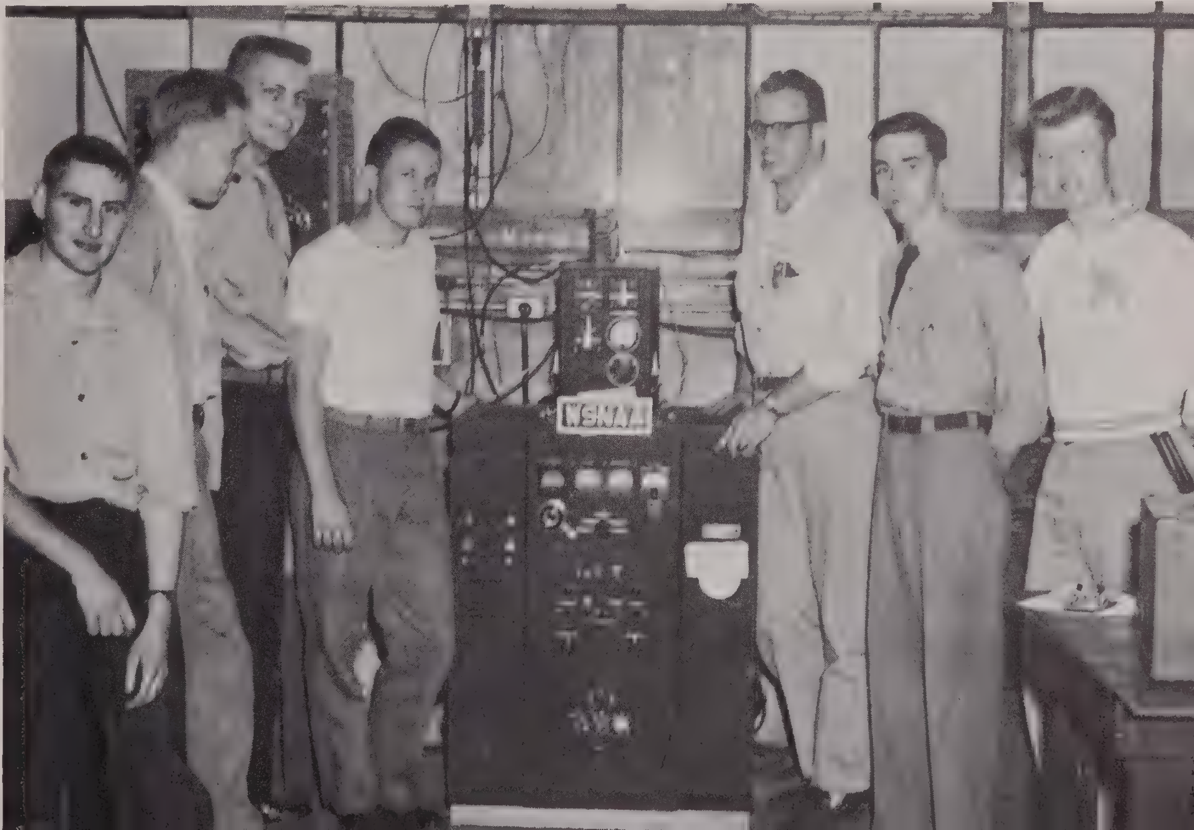
ctured are: Eppert, Vahle, Stott, Masters, Williams, Morris, McKee, Burtner, Barter, Whalen, Granlund.

Camera Club

The Camera Club, which was founded around 1900, is one of the oldest of the Rose organizations. A reminder of this fact may be found in the dark room in the form of stacks upon stacks of negatives, some of which date back to the early 1900's. The equipment, however, is modern and complete so that either the beginning photographer or the advanced amateur may enjoy an interesting and creative hobby.

Radio Club

The Rose Radio Club offers the opportunity to work with radio to all interested students. If the students interest is mechanical, he may build sets or assemble equipment; if he likes theory, he may find it in club discussions and student lectures. The "ham" finds ample equipment for amateur broadcasting and receiving over station W9NAA.



Pictured are: Sutton, Cross, Koontz, Boring, McCullough, Clark, Carpenter.

Front row: Tatooles, Granlund, Young, Kirk, Rezek, Vanover, Cross, Smith, C., Kalen.

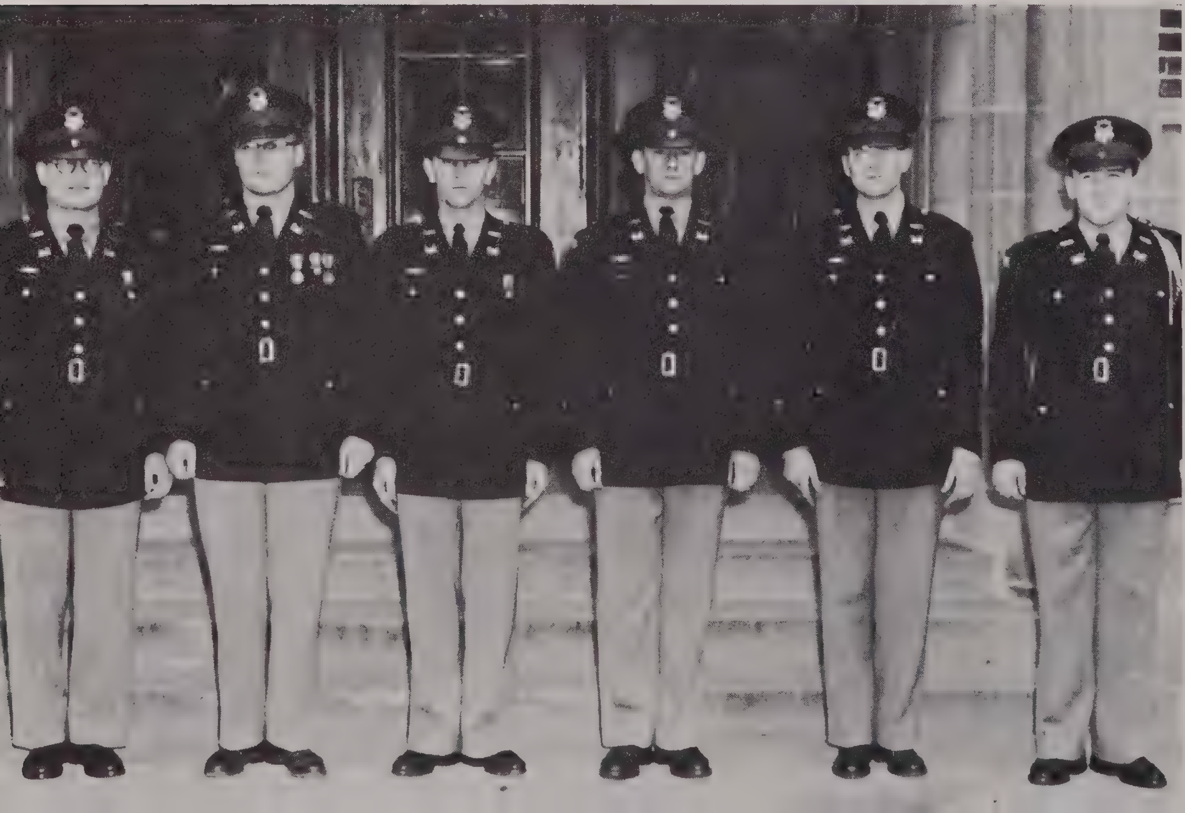
Second row: Wainscott, Bright, Bizal, Pebworth, Cunningham, Boring, Hills, Travis, Hageman.

Back row: Bloxsome, Johanningsmeir, Wertz, Shumate, Burtner, Simpson, Rhodabaugh, Payne, Johnson, Stevens, Grantham, Meredith.

R-Men

The "R" Men's Association was organized in 1938 by Phil Brown for the purpose of consolidating the letterman of the football, basketball, track, baseball, and rifle teams into an organization to promote greater interest in athletics. The organization also serves to establish a link between athletics of the past and present.

Regimental Staff



Regt. Staff
l. to r.: Samuels, Johnson, Bosshardt, Powers, Smith, Hebb.

Front row: Kellam, Gregory, Professor Moench, Mason, Schramm.
Back row: Rezek, Bosshardt, Young, Mrava.

Interfraternity Council

The primary function of the Interfraternity council is to promote harmony and good will among the four fraternities and the school. This is accomplished by discussion of problems of mutual interest to the four organizations at a monthly dinner meeting held at one of the fraternity houses. Of utmost importance to to the council is the setting of rush dates and the formation of the rules which govern the preferential rushing system.
